Experience

Demigad / Chief Technological Officer
FEBRUARY 2025 - PRESENT, CENTRAL PHILIPPINE UNIVERSITY

A founding member of the startup, Demigad, and its project BayloCentral. I have lead the team in the development of the application and handling versioning, deployment, and full-stack development

Freelance / Full Stack Developer
JANUARY 2023 - PRESENT, ILOILO CITY

I have worked with different clients inside and outside of the city in building their software ideas into reality. This spans from Web Development, Artificial Intelligence, and Mobile Development.

Education

Central Philippine University / BS in Software Engineering
AUGUST 2022 - AUGUST 2026, ILOILO CITY

I took my Bachelor's in Central Philippine University and have honed my skills in Software Engineering, such as Development and Documentation, with Agile workflows.

Iloilo National High School / STEM
AUGUST 2020 - JUNE 2022

I took STEM as I aimed to enter an Engineering course in College. I was an active contributor to my research thesis and did a side job as a professional Esports player.

Awards

With Honors (2018-2022), Deans Lister (2022-2025)
